Week Of Work Experience
Next week Ricky Riley will travel to Sydney to partake in the ASPIRE Week of Work Experience. Ricky will spend 10 days in Sydney experiencing the University of New South Wales and several different workplaces within Sydney. Good luck to Ricky I am sure it will be a fantastic experience.

Preliminary Yearly Exams
Good luck to the three year 11 girls sitting their preliminary yearly exams starting next week. This will be the culmination of three terms of work and will mark the start of the HSC year for these three students.

LAP Graduation
On Thursday night Lachlan Access Program will be holding their year 12 presentation night. This night will be a celebration of the student’s success across LAP in their HSC. This year it will be held at the Condobolin RSL. Well done to all our year 12 students finishing their HSC through LAP this year.

Assessments
Coming towards the end of term students are reminded they will have assessments tasks due. These tasks are due by 9am on the hand in date. Assessment tasks are a demonstration of student’s current knowledge and understanding of concepts being learnt. They inform teachers of where students are at and what needs to be emphasised more in the learning process. Whilst I encourage students to seek assistance in understanding the task requirements, students should be completing independent work to demonstrate their own understanding and knowledge of concepts.

LAKE SHOW

In the last previous weeks, Jess and Deonye have been baking cakes and cupcakes and decorating them which were entered in the Lake Show on the weekend. The girls went quite well with their cakes by each of them getting first prize and champion in their sections. Jess made flower cupcakes while Deonye made animal cupcakes. Jess created a square cake with a big purple bow and different coloured circles. Deonye made a 2-teared, purple and green cake with flowers around the sides. Both girl won 2 cocotte pots. The girls used different techniques to make various figures with fondant. Both girls did an outstanding job at their cakes and cupcakes.

CAREERS EXPO IN CONDO

On Thursday last week Mr Hague took Deonye, Ricky and Jess to a Careers Expo in Condo. The students went to the Wiradjuri Centre to explore all different careers from around the area. There were people from the mines, TAFEs, Universities, the Nation Defence Force and many more. The students had a wonderful day exploring and talking to the advisors and to try and find something they would like to do for a career. All the students liked the day and felt they all got something from the journey.

IMMUNISATION SCHEDULE 2014

Schedule

Wednesday 22th October 2014
Year 7 males and females and Year 9 males HPV 3rd dose
Key points to remember around schools

2 Driving near school buses
There is a 40km/h speed limit for traffic passing a school bus that is setting down or picking up school children.
This speed limit is for all traffic travelling in the same direction as the bus, whether the bus is stationary or moving.
The 40km/h speed limit must be obeyed when the rear wig wag lights on the bus flash.
Flashing headlights on these buses also alert oncoming motorists that children are close by.
As a driver, remember: When the lights on the bus are flashing, you must slow down to 40 km/h.
Never park in or near a bus stop or bus zone.
For information about fines and demerit points, visit rms.nsw.gov.au

3 On and off the bus safely
Your child is most at risk in the minutes after getting off the bus. You can reduce this risk.
Meet your child (or arrange for another trusted adult to meet your child) at the bus stop, NEVER on the opposite side of the road.
Wait until the bus has been driven away before choosing the safest place to cross the road, then follow the usual road crossing procedures with your children.
STOP! One step back from the kerb.
LOOK! For traffic to your right, left and right again.
LISTEN! For the sounds of approaching traffic.
THINK! Whether it is safe to cross.
Teach your children to keep turning their head in both directions to look and listen for traffic as they cross the road.
While waiting at the bus stop, stand well away from the passing traffic. Never wait right at the kerb.
Remind your children that when a bus is fitted with seatbelts, they must buckle up.
Until they turn ten, hold hands with your child as you cross the road.

Removing head lice and nits

At a glance:
- Head lice and nits only live on human heads.
- They don't care if the hair is long or short, clean or dirty.
- Head lice are an unavoidable fact of life for all school-aged kids.
- The best and cheapest way to remove them is with inexpensive conditioner and a nit comb.
- You will need to re-treat your child several times before all the eggs will be gone.

Mention head lice and most of us instantly develop an itch. You'll find these little critters at every school across Australia - and probably the world - at some point during the year. While head lice and nits, (the eggs of head lice) are certainly annoying and persistent, they're not dangerous. Here's everything you need to know to rid your kids of head lice and nits.

Nitbusters' myth busters
- Kids with head lice don't always scratch. The only way to rule out infestation is to look carefully through your child's hair.
- Head lice are only found on the human head.
- Head lice and nits live in long, short, curly, straight, clean or dirty hair.
- They are not found on family pets.
- Shaving your child's head is radical and unnecessary!
- Head lice do not live on furniture, hats, bedding, carpet or anywhere else in the environment.
- Head lice don't leap or jump. They crawl from hair to hair, from one head to another.
- Treating anything other than the human head does not get rid of head lice.
- There is no way to prevent your child from getting head lice.
- You may be able to help reduce transmission by tying girls' hair back and braiding it.
- Never use insecticides, methylated spirits or kerosene on your child's head.
- Some essential oils, including tea tree oil, can trigger a reaction in some people. Tea tree oil is a proven antiseptic, but its effectiveness as a head lice treatment has not been demonstrated.
- You don't need to use an expensive commercial product.
- If you do decide to use a commercial treatment on your child's head, read the instructions very carefully.

Removing head lice and nits

You'll need:
- a bottle of cheap hair conditioner
- a towel
- a thick tooth comb
- a fine tooth comb
Steps:

1. Sit your child on a chair or stool in front of you. Wrap a towel around their shoulders to catch conditioner spill. (You may want to put a video or TV show on, as this process can take a while.)

2. Apply a cheap, pale coloured conditioner generously to your child's hair. Work it through to coat every strand of hair. For long hair, it may be easier to tie one side of the hair off, and work in sections.

3. Head lice breathe through small openings along their abdomens. By coating the hair and therefore the louse in something thick and slimy, these openings close over, shutting down the louse's breathing for about 20 minutes – long enough for them to stay still and be combed out.

4. After you’ve applied the conditioner, use a large comb to part small sections of the hair, starting from the nape and working upwards toward the crown.

5. When the hair is detangled and manageable, use a fine lice comb and run through each section several times. Eggs are often found behind the ears and toward the back of the head. By combing from the bottom of the back of the head up, towards the top and front of the head, you’re more likely to find the head lice.

6. After each comb out, wipe the conditioner on the paper towel. If your child has head lice, you will see them on the towel (they’re a little like small, brown, chia or sesame seeds.)

7. Keep combing each section of hair until no further lice or eggs appear on the paper towel. Often you will see lots of old egg casings that may take a while to remove.

8. Once you have combed and re-combed each section of hair, either re-plait or tie it back if it’s long enough.

9. Head lice often congregate on the crown of the head, so it’s not until you reach these last sections of hair that you’ll find adult lice. However, heads that are severely infected will have adult lice everywhere.

0. Repeat at least twice over the next few days, until you can’t find any more in the conditioner. You’ll never be able to get all the head lice and eggs out the first time. However, in the days after your first treatment, the eggs will hatch and you’ll be able to catch the crawling nymphs (young lice).

Cricket

The Lake Cargelligo district cricket AGM is on this week and as yet we don't have enough players for a team. I have heard that there will be two Euabalong teams, one from Hillston & maybe a Rankin Springs team as well as Yelkin & Lake so it should be a great competition. If anyone is interested in playing cricket this year for Tulli please message or ring Leanne 0427729320 before Thursday.

There is a six aside competition on Saturday 4th October for any team that would like to nominate - the competition is limited to 16 teams and there is $1000 prize money.

TULLIBIGEAL
NEWS

TULLIBIGEAL CWA MEMBERS ARE AWESOME.

At the most recent Group competitions, our members came home with trophies. One of the trophies, (Zeonee Stokes Shield) has never been won by Tullibigeal members in its history. Kerry and Ellen both represented our branch with a humorous item, with Kerry winning for her ditty. Ellen and Lila were 1st and 3rd respectively in the Audrey Delves Trophy for their lovely placemats using Christmas cards. Congratulations to you all.

The President would like to convey her thanks to all those community members who have helped the branch at functions in the last month, whether it be washing up, stacking table and chairs or making food. Without you all we would find some days rather difficult.

Planning is well underway for CWA Awareness week from 7th to 13th September. Our branch is having a craft morning on Tuesday 16th September with candle making beginning the session at 10am. All are welcome. Please bring a tea cup, glass, muffin paper to put your wax in. The tutor comes from Griffith and the second activity is yet to be decided. Cost for the morning is $10. All enquiries can be made to Ellen or Fay. CWA of NSW is promoting its latest resolution about Lymes Disease. Please read about it in the various papers during September. Tullibigeal branch members are hopeful that CWA can achieve its goals regarding Lymes Disease.

At the August meeting we held a guess what and Sue brought in a piece of equipment called a bias maker that she is using for quilt making and Ellen brought a beautiful piece of Chenille embroidery work. Rhonda’s Camelia wcn Bloom of the month and Gillian won the raffle. We shout out a big Happy Birthday to member Lila, wish all our members good health in this awful cold season.

Melbourne cup day is fast approaching. If you wish to have a stall, then please contact Fay. Our next meeting is at 2pm on Tuesday 16 September and the competition for the day is a poem about CWA.

Present time!

This Friday, 5th September, has been allocated for making Father’s Day gifts. We will be making these for a role model in our lives that we love and appreciate all the things they do for us.

With the weather getting much nicer and Spring in the air I am hoping that Friday will grace us with a nice afternoon so that we can also get across to the park for a few games and a run around.

Once again, the next school holidays will see the power boats visit Lake Cargelligo. If this visit is as successful as the last it will be a wonderful day. There will be mini games for the younger children. The older youths will have the opportunity to go on the tubes behind the ski boats and use the kayaks on the lake. Grab a friend and bring them with you. Go down for an hour or two, have some fun. I would love to see you there. More details to follow.
